# About Us

IVARS S.p.A. specializes in the processing of plastic materials

Founded in 1947 in Val Sabbia, Italy, over time, we have extended the range of products manufactured in IVARS. The experience gained has led to us developing three business lines: seating components ranging from feet to headrests to backrests, accessories for furniture, and articles for the construction industry.

Throughout our 75-year history, our watchword has remained an unswerving focus on the individual as central to our business, championing the value of our employees and clients alike.

Thanks to the expertise of our 150 employees – a core element that's driven the company's evolution – IVARS offers personalised and innovative solutions that deliver outstanding performance, the fruit of close dialogue that lies at the heart of every project, transforming ideas into functional objects.

**IVARS is part of the TWINSNETWORK.**

# What is Twins Network?

With IVARS as the parent company, Twins is an established global brand that unites companies (in *Italy* and *abroad*) specialised largely in the production of metal, plastic and wooden components for all types of seating.

Twins apporte l'expérience et le professionnalisme du Made in Italy dans le monde entier, en Angleterre, France, Espagne, République Tchèque, Inde, USA, Mexique, Brésil, Chili, et Argentine.

Outre Ivars SpA, Brado S.p.A, Omsi S.r.l, Ivars France S.A.S, Stiwood S.r.l., Metalmeccanica Alba S.r.l., Compuniver Group S.L, Ergocomp Plastic (I) Ptv Ltd., Arabian Furniture Components Fzco, Ivars Real Estate USA L.l.c, Drvoservisd.o.o., Ergonomics Components S. de R.L de C.V, Ofipartes S.A, Rhodes S.A, Alubase S.A, Ivars USA Inc., Contatto S.A, HartecS.r.L, Stocco F.lli S.r.L., Elledi Plast S.r.L. sont des filiales de Twins.

# Flexibility: our watchword for 75 years

After the Second World War, on 26 June 1947, at the tender age of twenty-four, Giulio Pietro Ebenestelli opened Industria Valsabbina Applicazioni Resine Sintetiche in Vestone: IVARS was established.

**Right from the beginning, adaptability to market needs, together with a strong character that matched that of its founder, have remained the defining characteristics of IVARS's DNA.**

At the end of the Second World War Ebenestelli found himself in control of his family's forge, left devastated by the Nazis and fascists as a reprisal for participation in the resistance. Then the 1950s, after purchasing new machinery, the young Ebenestelli formed IVARS and production of the first plastic items commenced with the creation of advertising objects. Over the next decade, plastic processing became the company's core business. Then in 1986, IVARS began manufacturing chair components. In the 60ies the plastic production became more and more important. In 1986 IVARS started with the production of components for seating.

# Timeline

---

**1947**

Giulio Pietro Ebenestelli founded IVARS.

**1953**

These are the years when Italian TV's Carosello ad show popularises advertising. IVARS begins manufacturing advertising objects such as plastic ashtrays

**The 60s**

Plastic processing becomes IVARS's core business.

**The 2000s**

Innovation and customised processes for its client companies.

**2017**

70 years of IVARS.

**2018**

IVARS rebranding.

## The 70s

The business begins manufacturing TV components (TVs with cathode ray tube) and plastic objects. Production is meticulous, complex and precise, as the accessories are used in Beretta weapons, and furnishing accessories.

## The 80s

The business realises the potential to harness its knowledge of plastic materials to manufacture furniture components, and in particular seating components. Additionally, it sets up a division manufacturing building accessories.

## The 90s

IVARS establishes its seating components division.

## 2023

After 4 years, IVARS returns once again is present at trade fairs: our participation in Interzum 2023 with the partners of the Twinsnetwork Group is a great success.

## Today

At IVARS, we continue to invest in the future: technology and the Green evolution are central to our ongoing growth – and as always, our philosophy which places Man at the Centre.

# Vision.

# Man at the Centre

At IVARS we strive to champion the individual as a cornerstone of our evolutionary process. That's why we invest in people, meaning both in our human resources and our clients. We do this to offer innovative solutions that are continually aligned with market needs.

# Mission.

# Creating solutions

**Research and Development:** At IVARS, we invest in our human resources and business technologies to offer a dynamic product offering that anticipates trends, transforming your needs into reality – no matter how innovative your projects.

**Worldwide client reach:** our extensive network of agents in Italy and the active presence of the Group's foreign companies and export managers on international markets guarantees operational excellence, and the flexibility to adapt to changing business situations both in choices at an internal strategic level and the final products we offer.

**Flexibility:** since IVARS was established, our strength has lain in our ability to listen to market demands and adapt our skills accordingly. Our core business can be precisely summarised: our ability to deliver solutions by giving concrete form to our clients' ideas.

**Experience:** IVARS has 75 years of expertise in plastics manufacturing. This is your assurance of maximum precision at every stage of processing, thanks to the experience and meticulous attention paid by our staff. Respect for deadlines and swift delivery are our watchwords in IVARS.

**Investing in the local community:** we believe in championing the skills of the entire local community in which we are headquartered. To this end, we've always strived to collaborate with local companies to create products, offering them subsidised solutions and providing spaces and technologies to safeguard them, whilst at the same time guaranteeing the utmost precision of the end results.
